January, 2017

2017 is going to be a great year! One of my goals is to continue sharing information on HOW and WHY skin care is important . . . and WHY Rodan + Fields Skin Care is a highly effective option. Drs. Rodan and Fields are quoted in the 4/25/16 Forbes article, *The Rising Success Of Rodan + Fields Thanks to Nontraditional Retail and Savvy Women* by Nicole Leinbach-Reyhle:

*At the heart of Rodan + Fields is dermatology based skincare products that deliver visibly transformative results. As dermatologists we know that 'perfect skin' is a myth and given that in the United States there is approximately 1 dermatologist per 30,000 people, few individuals have the luxury of seeing a dermatologist for help with their common skin and aging concerns. Through our practices and decades of product development experience, we know that matching the right ingredients, in the right products, in the right order for a customer's specific concern, will help our customers attain the best skin of their lives.*

We have several Essential and Enhancement products, but the heart of our business are our regimens: REDEFINE, REVERSE, UNBLEMISH, and SOOTHE.

I continue to be impressed with this company’s responsiveness to its customers’ needs and suggestions. Here is how R+F has improved the REVERSE regimen.

The REVERSE regimen improves the appearance of premature aging including brown spots, dullness, and discoloration. It visibly brightens and reduces the appearance of fine lines.

However, there are some brown spots that just won’t lighten up.

There is an additional product that is stronger for those stubborn spots that is substituted for the REVERSE product #3. In the past you had to buy each product in this regimen separately. **Now you can get the original regimen ([REVERSE Brightening Regimen](#)) and a super-strength regimen ([REVERSE Lightening Regimen](#)).**
